Curriculum Vitae – Charles William Machan

Current Address
Department of Chemistry
University of Virginia
McCormick Road PO Box 400319
Charlottesville, VA, 22904-4319

Office: +1 (434) 924-7997
E-mail: machan@virginia.edu
Web: machangroup.virginia.edu

Personal

Born: April 17; Madison, WI.

Education and Training

University of California-San Diego	Molecular Electrochemistry	Postdoc (2013-2016)
Northwestern University	Inorganic Chemistry	Ph.D. (2012)
Washington U. in St. Louis	Chemistry and German	B.A. (2008)

Summary of Professional Experience

08/10/2016-present — Assistant Professor, University of Virginia Department of Chemistry

01/2013-07/2016 — Postdoctoral Researcher, University of California San Diego ***Postdoc Advisor: Clifford P. Kubiak***. Research Specialization: Spectroelectrochemical Characterization Methods and Electrocatalysis.

09/2008-12/2012 — Doctoral Candidate, Chemistry Department, Northwestern University. ***Advisor: Chad A. Mirkin***. Research Specialization: Organometallic and Coordination Chemistries of Multidentate Ligands.

Awards and Honors

2020 — Recipient of the 2020 ACS Division of Inorganic Chemistry Award for Undergraduate Research with mentee Julia M. Dressel.
2012 — Edmund W. Gelewitz Award for Outstanding Senior Graduate Student, Northwestern University
2006-2008 — All-Academic UAA Football Selection, Washington University in St. Louis
2005 — Dean's List, Washington University in St. Louis

Publications

(* - denotes co-first authorship; # - corresponding author; underline – undergraduate author)

45. “Developing Molecular Electrocatalysts for Reactions Relevant to Renewable Fuels” Haverford College Chemistry Seminar, November 2, 2018 (invited talk).
46. “Developing Molecular Electrocatalysts for Reactions Relevant to Renewable Fuels” Shippensburg University Chemistry Seminar, September 14, 2018 (invited talk).
47. “Developing Molecular Electrocatalysts for Reactions Relevant to Renewable Fuels” High Point University, NC Chemistry Seminar, September 7, 2018 (invited talk).
48. “Polypyridine-Based Molecular Electrocatalysts for Reactions Relevant to Solar Fuels” 43rd International Conference on Coordination Chemistry, Sendai, Japan, July 30-August 4, 2018 (invited talk).
49. “Reaction Parameters of Electrochemical O_2 Reduction by a Molecular Mn Catalyst” Gordon Research Conference: Organometallic Chemistry, Salve Regina, RI, July 8-13, 2018 (poster).

50. “PCET Reactions of Metal Complexes with Proton-Responsive Ligands in Small Molecule Activation” 3rd Annual International Conference on Proton-Coupled Electron Transfer, Blowing Rock, NC, June 10-14, 2018 (invited talk).
51. “Electrochemical Reactivity of Mn(V) Nitride Complexes with a bis(Phenolate)-Functionalized Bipyridine Ligand” 3rd Annual International Conference on Proton-Coupled Electron Transfer, Blowing Rock, NC, June 10-14, 2018 (poster).
52. “Earth-Abundant Molecular Electrocatalysts for the Reduction of CO_2 and O_2” Symposium for the ACS Harry Gray Award for Creative Work in Inorganic Chemistry by a Young Investigator in honor of Dwight Seferos, 255th ACS National Meeting, New Orleans, LA, March 20, 2018 (invited talk).
53. “Polypyridyl Electrocatalysts for the Reduction of CO_2” Symposium for the ACS Award in Organometallic Chemistry in honor of Clifford P. Kubiak, 255th ACS National Meeting, New Orleans, LA, March 18, 2018 (invited talk).
54. “Developing Molecular Electrocatalysts for Reactions Relevant to Renewable Fuels” Juniata College Chemistry Seminar, March 6, 2018 (invited talk).
55. “Developing Molecular Electrocatalysts for Reactions Relevant to Renewable Fuels” Southern Methodist University Chemistry Seminar, February 23, 2018 (invited talk).
56. “Developing Molecular Electrocatalysts for Reactions Relevant to Renewable Fuels” Hampton University Chemistry Seminar, January 25, 2018 (invited talk).
57. “Developing Molecular Electrocatalysts Relevant to Solar Fuels” Solar Energy Research Conference at the Southeast Regional Meeting of the ACS, November 9, 2017 (invited talk).
58. “Metal-Organic Frameworks as Template Shells for Enhanced Electrocatalyst Performance” 3rd MAXNET Energy Workshop, October 26-27, 2017 (talk and poster).
59. “Earth-Abundant Molecular Electrocatalysts for the Reduction of CO_2 and O_2” 254th ACS National Meeting, Washington, DC, August 24, 2017 (talk).
60. “Developing Molecular Electrocatalysts Relevant to Solar Fuels” International Solar Fuels Conference: ISF2, San Diego, CA, July 6-10, 2017 (invited talk).
61. “Developing Molecular Electrocatalysts Relevant to Solar Fuels” Gordon Research Conference on Inorganic Reaction Mechanisms, Galveston, TX, March 5-10, 2017 (poster).
62. “Bioinspired Molecular Electrocatalysts for the Reduction of CO_2” International Conference on Artificial Photosynthesis 2017, Kyoto, Japan, March 3, 2017 (invited talk).
63. “Bio-inspired CO_2 reduction by a rhenium tricarbonyl bipyridine-based catalyst appended to amino acids and peptidic platforms: incorporating proton relays and hydrogen-bonding functional groups” Faraday Discussions: Artificial Photosynthesis, Kyoto, Japan, March 2, 2017 (invited talk).
64. “Developing Molecular Electrocatalysts and Materials for Reactions Relevant to Solar Fuels” Davidson College Chemistry Colloquium, January 27, 2017 (invited talk).

Professional Affiliations

American Chemical Society (2009 – Present)

Delta Phi Alpha, German Honors Society (2007 – Present)

Alpha Chi Sigma, Chemistry Honors Fraternity (2007 – Present)

Phi Delta Theta (2007 – Present)

Professional Service

Journal Reviewer	*Dalton Transactions*, *Journal of the American Chemical Society*, *ACS Catalysis*, *ACS Central Science*, *Chemical Science*, *Chemical Reviews*, *Organometallics*, *Inorganic Chemistry, ACS Applied Material & Interfaces, Coordination Chemistry Reviews, Angewandte Chemie International Edition, Electrochimica Acta, Journal of CO_2 Utilization, ACS Sustainable Chemistry & Engineering, Sustainable Energy & Fuels, Chemical Communications, ACS Applied Energy Materials, Chemical Society Reviews, Nature Catalysis, Chemistry – A European Journal, ChemElectroChem, Accounts of Chemical Research*
Grant Reviewer	NIH MSFA Guest Reviewer (2021); NSF BMAT (2021); U.S.-Israel BSF (Binational Science Foundation, 2021); NSF EPSCoR (2021); ISF (Israel Science Foundation, 2021); DOE BES (2021); ARPA-E (2020); DOE BES (2020); DOE BETO (2020); ACS PRF (2020); DOE SBIR (2019); ACS PRF (2019); DOE BES (2018); DOE SBIR (2018); ACS PRF (2018); DFG (German Research Foundation, 2018); ACS PRF (2017); NSF CBET (2016)
Guest Editor	*Frontiers in Chemistry* (2019 - Molecular Catalysts for CO_2 Fixation/ Reduction)
Organizer	'Molecules and Materials for Solar Fuels' Symposium, Pittcon 2020; 'Molecular Catalysis of Carbon Dioxide Reduction from Renewable Energy' Symposium, Pittcon 2019
Co-Organizer	Symposium Co-organizer 'Emerging Areas in Inorganic Chemistry' 260th ACS National Meeting – Canceled (2020); 'Molecular Catalysts for CO2 Fixation/Reduction' 43rd ICCC, Sendai, Japan (2018)
Poster Judge	Virginia State Science and Engineering Fair (2021)
Participant	Cyclic Voltammetry International School (2019); CENTC Summer School on Catalysis (2015)

Departmental and University Service

Faculty Mentor	UVA L.E.A.D., Learning through Experimentation, Awareness and Demonstration (2019 – present). The L.E.A.D. program is dedicated to promoting chemistry through science education and awareness at the local level, through programs at the University of Virginia, as well as within classrooms across the Commonwealth of Virginia. Graduate and undergraduate students perform exciting demonstrations and facilitating classroom science experiments for elementary and middle school students through hands-on, inquiry-based activities.
Faculty Mentor	Mentoring Institute, The Office of Diversity Programs, University of Virginia (2020 – present).

Research Program

Current Support

New Directions Grant Machan (PI) 09/01/2020 – 08/31/2022
ACS Petroleum Research Fund 61430-ND3 $110,000
Activation of Hydrocarbons Using Dioxygen-Derived Metal Oxidants

NSF Division of Chemistry Machan (PI) 05/01/2021 – 04/30/2024
Catalysis CHE-2102156 $475,000
Activation of Hydrocarbons Using Dioxygen-Derived Metal Oxidants

DOE Basic Energy Sciences Machan (PI) 09/01/2021 – 08/31/2024
Catalysis DE-SC0022219 $455,631
Molecular Co-Electrocatalytic CO_2 reduction with Redox Mediators

Past Research Support

Research Agreement Machan (PI) 10/01/2017 – 12/31/2020
ExxonMobil $1,000,000
Testing the Industrial Scalability of Molecular CO_2 Electrocatalysts under Electrochemical Flow Reactor Conditions

Graduate Students
1. Amelia G. Reid, Department of Chemistry, 11/2019 – present
2. Emma Cook, Department of Chemistry, 11/2019 – present

M.S./M.A. Graduates
1. Kolton A. Kitterman, M.A. 2020
2. Joseph S. Kuehner, M.A. 2020
3. Tie Ling, M.S. 2020
4. Lauren E. Lieske, M.S. 2020
5. Jillian Turner, M.A. 2020
6. Diego Barahona, M.A. 2019
7. Connor Geraghty, M.A. 2019

Ph.D. Graduates
1. Asa W. Nichols, Department of Chemistry, 11/2016 – 05/2021
2. Shelby L. Hooe, Department of Chemistry, 11/2016 – 06/2021

Undergraduate Students
1. Andy Chen, 2021-present (University of Virginia 2025)
2. Evan Wade, 2021-present (University of Virginia 2022)
3. Alex Adatsi, 2021-present (University of Virginia 2022)
4. James Sappington, 2021-present (University of Virginia 2023)
5. Adam Lee, 2021-present (University of Virginia 2023)
6. Lauren Santucci, 2018-2020 (University of Virginia 2021)

7. Kira Baugh, 2019-2021 (University of Virginia 2021)
8. Peter Miedaner, 2017-2021 (University of Virginia 2021)
9. Julia Dressel, 2017-2021 (University of Virginia 2021) NSF - GRFP
10. Erin Morrisroe, 2017-2020 (University of Virginia 2021)
11. Daniel Kemp, 2018-2019 (University of Virginia 2019)
12. Brittany Huffman, 2016-2018 (University of Virginia 2018) NSF - GRFP
13. Kelly Rudman, 2016-2017 (University of Virginia 2017)

Postdoctoral Associates

1. Juan-José Moreno-Díaz, Ph.D. 2019-2021
2. Changcheng 'CC' Jiang, Ph.D. 2017-2019
3. Sayanti Chatterjee, Ph.D. 2017-2018

Teaching

University of Virginia

CHEM 4320: Inorganic Chemistry (F 2017, F 2018, F 2019, F 2020, F 2021)
CHEM 5330: Group Theory and Structural Inorganic Chemistry (F 2016, Sp 2018, Sp 2019, Sp 2020)
